“David Shambaugh provides a thoughtful look at the nature and consequences of China's rise in this carefully researched and well-written volume.”

—Henry A. Kissinger

“A fascinating and scholarly challenge to the received wisdom about China's rise, and an important critique of the accepted narrative of Chinese expansionism.”

—*The Economist*

“The argument of *China Goes Global* is made forcefully, systematically and with plenty of evidence. It marshals information and research in a way that is valuable—and often fascinating.”

—*Financial Times*

“Shambaugh has written a terrific book whose breadth and mastery of detail measures China's global reach.” —*Asian Wall Street Journal*

“A wide-ranging, impressive work.”

—*New York Review of Books*

In *China Goes Global*, eminent China scholar David Shambaugh delivers a sweeping account of China's growing prominence on the international stage. Thirty years ago, China's role in global affairs beyond its immediate East Asian periphery was decidedly minor and it had little geostrategic power. Today, China's expanding economic power has allowed it to extend its reach virtually everywhere—from mineral mines in Africa, to currency markets in the West, to oilfields in the Middle East, to agribusiness in Latin America, to the factories of East Asia. Shambaugh offers an enlightening look into the manifestations of China's global presence: its extensive commercial footprint, its growing military power, its increasing cultural influence or “soft power,” its diplomatic activity, and its new prominence in global governance institutions. But Shambaugh is no alarmist. In this balanced and well-researched volume, he argues that China's global presence is more broad than deep and that China still lacks the influence befitting a major world power—what he terms a “partial power.” He draws on his decades of China-watching and his deep knowledge of the subject, and exploits a wide variety of previously untapped sources, to shed valuable light on China's current and future roles in world affairs.

David Shambaugh is Professor of Political Science and International Affairs and Director of the China Policy Program at George Washington University, as well as a nonresident Senior Fellow in the Foreign Policy Studies Program and Center for East Asian Policy Studies at the Brookings Institution.
